Thursday, September 18th  
2:00pm ET

#### Cost

Free!

“I sat down with my Angel.com account representative and he built the system right in front of me as I described what features I needed and how it would be used. He then tested and deployed the program that same day. And, since it's a hosted solution, I don't have the extra expense of maintaining in-house call management software.”

- Ron Farrin,  
Director of Vehicle Donations,  
Melwood

In the non-profit world, maximizing productivity while minimizing expenses is always a priority. Getting important constituent data from your salesforce.com application to the people who need it most – your outreach, support, and service personnel – and doing so easily and efficiently, is critical to running your organization.

Are you getting the most benefit out of your salesforce.com application? What if accessing and updating your salesforce.com data was as simple and cost-effective as talking on the phone?

Join Angel.com for a free live webinar and learn how to extend the power of your salesforce.com application to the phone. We'll discuss how phone-enabled CRM solutions can help you improve the productivity and efficiency of your outreach marketing and support functions while at the same time reducing costs and enhancing the constituent experience.

Learn how to:

- Automate outbound or inbound phone surveys
- Setup volunteer check in/check out lines
- Create automated donation and information lines
- Easily deploy an enterprise-grade virtual call center

**All attendees will receive a 10% pricing discount!**

Get educated without leaving your office! Join Angel.com for 1 hour on Thursday, September 18th at 2pm ET. It's easy, it's quick...and it's free.

**“We weren't using any other method before, it was too cost prohibitive. If we wouldn't have stumbled into Angel.com, we would not have a statewide hotline helping low-income families get the food assistance they need.”**

- Jessica Bartholow, Statewide Program Mgr  
California Association of Food Banks
